62-109060-890: If the Mex. operator eavesdropped and heard anything like this call it was one of the many anti-Castro Cuban fabrications. Fortunately the AIB appears to know less than it could about Portuondo or they'd go ape on this. The story is inherently irrational. The Cuban b.s. is typical, more irrational. I'll call this Cubans, JFK Ass. Disinformation. There was much of this. I should have set such a file up long ago.
